

Colegio Menor San Francisco de Quito **MUSIC DEPARTMENT**

About the Early Childhood Recording Project:

Young children do not listen to music; they become the music; they are the music. Children sing before they can speak; they act out a story before they can read it. Through music, children learn and express themselves better.

These songs were created for the teacher, parent, and child to reinforce skills and routines in the classroom. All songs were recorded by CMSFQ students and teachers, using real instruments, and are a reminder that you do not need professional musicians to make music; you need only passionate people who love what they do.

Sing the songs with your child, dance, play, and enjoy the process of learning!
